

# YOUR SON

**Y**ES, your son may be lying there on the battlefields before another year is over. Your son may need a Red Cross ambulance, a Red Cross doctor or a Red Cross nurse's care. And if not your son, it will be your neighbor's son, for hundreds of Chattanooga's finest young men will be at the battle front before very long. That is the condition that you are facing and you might as well face it squarely now, and that is why we are asking you for money for the Red Cross fund—so that your son and your neighbor's son will get the care needed when they have gone through hell itself to fight for us.

There is no man or woman in Chattanooga who can refuse to give for such a cause. There is no man or woman anywhere in Chattanooga so heartless and so cruel as not to give.

There is no man or woman in Chattanooga who can weigh money against the pain and agony of a soldier lying crushed and torn and blinded, choked by poison gas or seared by liquid flame, on the frightful battlefields of France.

What will you give to ease the suffering of those heroes dying there? What will you give to help make their torture lighter? What will you give to save their lives? No matter how much you give, it will be small and insignificant compared with what those soldiers give, who give in blood and mangled flesh and lay down there to die. What will you give?

*Liberty Bonds will be accepted at their face value as donations to the Red Cross Fund*  
*All donations made to the Red Cross are deductible from income tax returns*
